1 INTRODUCTION

This document defines the business activities performed by PSW GROUP GmbH & Co. KG (PSW GROUP) as Registration Authority (RA) of the Sectigo Web PKI of Sectigo Limited for S/MIME certificates. The Sectigo Web PKI regulates the issuance of S/MIME certificates that are to be trusted on the public Internet.

PSW GROUP acts as a Registration Authority for Sectigo, performing registrations and facilitating the trading of digital certificates under the Sectigo Web PKI.

1.1 Overview

PSW GROUP is one of the leading service providers for certificate solutions in Germany. We successfully cooperate with the largest certification authorities worldwide. An important part of PSW GROUP's business activities comprises the registration of organization-validated and sponsor-validated S/MIME certificates. For the Certification Authorities for which we perform these validation activities, we verify the identity of the subscriber/certificate holder, and typically conduct the validation call in German. In accordance with WEBTRUST PRINCIPLES AND CRITERIA FOR REGISTRATION AUTHORITIES, we provide the following information about the services we provide as part of our work for Sectigo.

1.2 Document Name and Identification

This document is an addendum by PSW GROUP to the combined S/MIME CP/CPS of Sectigo.

This Addendum specifies additional requirements for Registration Authorities (RAs) acting on behalf of Sectigo. The goal is to ensure compliance with the current WebTrust Principles and Criteria for Registration Authorities, supporting the integrity, traceability, and trustworthiness of registration processes.

PSW GROUP acts in accordance with the current specifications of the CA/B Forum:

- Baseline Requirements for the Issuance and Management of Publicly-Trusted S/MIME Certificates - Link: <https://cabforum.org/working-groups/smime/documents/>
- Network and Certificate System Security Requirements - Link: <https://cabforum.org/working-groups/netsec/documents/>

PSW GROUP complies with the current version of the following WebTrust documents by CPA Canada:

- WebTrust Principles and Criteria for Registration Authorities – Link: <https://www.cpacanada.ca/en/business-and-accounting-resources/audit-and-assurance/overview-of-webtrust-services/principles-and-criteria>

And according to the requirements of the Certification Authority (CA) Sectigo including the documents:

- S/MIME Certificate Policy and Certification Practice Statement v1.0.4 - Link: <https://www.sectigo.com/legal>

If any inconsistency exists between this document and the normative provisions of any applicable industry guideline or standard, the industry guideline or standard shall take precedence over this Business Practices Disclosure.

Our Business Practices Disclosure documents address our collaboration with Sectigo in the validation of TLS, S/MIME and Code Signing Certificates.

In sections that do not concern PSW GROUP as RA no stipulation is made to the combined CP/CPS of Sectigo. In these sections, "No stipulation." is noted.

1.2.1 Revisions

This document is reviewed at least annually and adopts changes in Sectigo S/MIME CP/CPS in a timely manner.

Document version	Changes

1.3 PKI Participants

No stipulation.

1.3.1 Certification Authorities

No stipulation.

1.3.2 Registration Authorities

PSW GROUP collects and verifies the identity of each Subscriber and the information to be enrolled in the Subscriber's certificate. PSW GROUP performs its function in accordance with the CP/CPS approved by the Policy Authority. PSW GROUP regularly performs the following tasks:

- the registration process
- the identification and authentication process.

PSW GROUP operates locally within its own geographic or business partnerships, subject to approval and authorization by Sectigo, and in accordance with Sectigo's practices and procedures.

PSW GROUP does not itself issue digital certificates, nor does it arrange for their issuance. PSW GROUP registers some or all of the subject's identity information, but does not perform domain control validation.

The RA is responsible for recording all validation steps and maintaining tamper-evident logs of all registration-related actions. The CA reserves the right to audit these logs at any time. All RA staff involved in certificate approvals must be uniquely identified and actions must require dual control (two-person rule) where required by WebTrust.

Sectigo operates a number of intermediate CAs from which it issues certificates for which PSW GROUP has performed the registration process.

1.3.2.1 Internal Registration Authority

No stipulation.

1.3.2.2 External Registration Authority

PSW GROUP acts as an External Registration Authority for Sectigo.

External Registration Authorities must comply with WebTrust for RAs, including maintaining their own documented controls and undergoing independent annual audits. Audit results must be shared with Sectigo and may be required for CA/Browser Forum compliance verification.
