Since the year 2000, well-known companies have relied on the expertise, services and solutions of PSW GROUP. During these times we have developed into one of the leading service providers for certificate solutions in Germany. We successfully cooperate with the largest certification authorities worldwide. Our goal is to provide our customers with the best possible service and to offer them

exactly the product that meets their requirements. An important part is the pre-validation of organization-validated and extended validated SSL and Code Signing certificates. For the CAs for which we perform these validation activities, we verify the identity of the subscriber/certificate holder and usually perform the validation call in German. Our customers in the German-speaking countries greatly appreciate this service. In accordance with WEBTRUST PRINCIPLES AND CRITERIA FOR REGISTRATION AUTHORITIES, we provide the following information about the services we provide as part of our work for Sectigo.
